SUMMARY

Informatics Engineering graduate with internship experience in backend and web application development. Experienced in building and maintaining web applications and RESTful APIs using Laravel, Node.js, Next.js, and Supabase, with hands-on experience in MySQL, PostgreSQL, and MongoDB. Familiar with frontend development using React, Next.js, Tailwind CSS, and Bootstrap, as well as Git-based version control and collaborative development workflows using GitHub and GitLab. Interested in backend, frontend, and full-stack software development, with additional experience in machine learning.

EDUCATION

UNIVERSITAS TRUNODJOYO MADURA

Bangkalan, Indonesia

Bachelor of Informatics Engineering | GPA 3.85/4.00

2022 - 2026

Thesis: Rice Variety Classification Using MobileNetV3 with Efficient Channel Attention

WORK EXPERIENCE

MINILEMON TECHNOLOGY

Surabaya, Indonesia

Backend Developer Intern

October 2025 – December 2025

- Contributed to the development of a Period Tracker application using Next.js and Supabase.
- Configured Supabase, including database tables, authentication, and Row Level Security (RLS) policies.
- Integrated Supabase with the Next.js frontend using Server Actions.
- Developed a menstrual cycle prediction feature based on stored user data.

INAGATA TECHNOSMITH

Malang, Indonesia

Backend Developer Intern (MBKM Mandiri)

February 2025 – June 2025

- Contributed to the development and maintenance of backend services using Laravel for the SIAKAD Ma'had Aly Sa'iidussiddiqiyah Jakarta.
- Developed and integrated RESTful APIs to support application data flows between backend and frontend.
- Developed features for the Kepesantrenan module, including permissions, violations, and night-class attendance.
- Implemented Excel import and export functionality for student, lecturer, attendance, and grade data.
- Fixed bugs, improved performance, and adjusted features related to final-project registration and stages.
- Optimized and adjusted dashboard APIs to improve overall system performance.

PT SABA INDOMEDIKA

Surabaya, Indonesia

IT Support Intern

January 2025 – February 2025

- Developed a web-based laboratory reagent inventory application using Laravel, Bootstrap, jQuery, and MySQL.
- Implemented inventory management and barcode printing features to support laboratory operations.
- Performed application testing, bug fixing, and interface optimization to improve usability and responsiveness.
- Collaborated with internal teams to align the application with operational requirements.

WARGALAB JURUSAN TEKNIK INFORMATIKA

Bangkalan, Indonesia

Teaching Assistant

July 2024 – December 2024

- Guided students during Web Application Development (PAW) laboratory sessions.
- Prepared practical materials and provided technical guidance throughout laboratory activities.
- Assisted with evaluation and assessment of students' practical work.

PROJECTS

- **Period Tracker App** – A period tracking application that allows users to record menstrual symptoms, blood flow, mood, and other related notes. The application also provides menstrual period predictions based on stored user data. Built with Next.js and Supabase.
- **Backend SIAKAD Ma'had Aly Sa'iidusshiddiqiyah Jakarta** – Backend system for an Academic Information System (SIAKAD) that manages student data, grades, schedules, and academic administration. Built with Laravel and MySQL, with features supporting data management, module integration, and backend performance.
- **Laboratory Reagent Inventory Management System** – A web-based application for managing laboratory reagent inventory, including stock tracking, item management, usage monitoring, and barcode printing. Built with Laravel, Bootstrap, jQuery, and MySQL.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python

Frontend: HTML, CSS, React, Next.js, Tailwind CSS, Bootstrap, jQuery

Backend: Laravel, Node.js, Express.js, RESTful APIs

Database & BaaS: MySQL, PostgreSQL, MongoDB, Supabase

Tools: Git, GitHub, GitLab, Postman, Figma

ML: TensorFlow, PyTorch

TRAINING

- **Dicoding Academy** – *Web Programming Basics*
- **Dicoding Academy** – *JavaScript Programming Fundamentals*
- **Dicoding Academy** – *Creating a Web Front-End for Beginners*
- **Dicoding Academy** – *Beginner Back-End Development with Javascript*
- **Dicoding Academy** – *Prompt Engineering for Software Developers*
